### Fixed Seating Solutions

Lecture halls directly reflect a facility's image and are a key component in attracting and retaining students. Fixed-flexible environments combine the right balance of static and dynamic. Imago fixed seating solutions offer an unprecedented degree of flexibility and versatility.

Seats that rotate 360 degrees enable the formation of teams quickly and efficiently. Yet stationary bases and automatic memory seat-returns maintain an orderly, uncluttered room appearance.

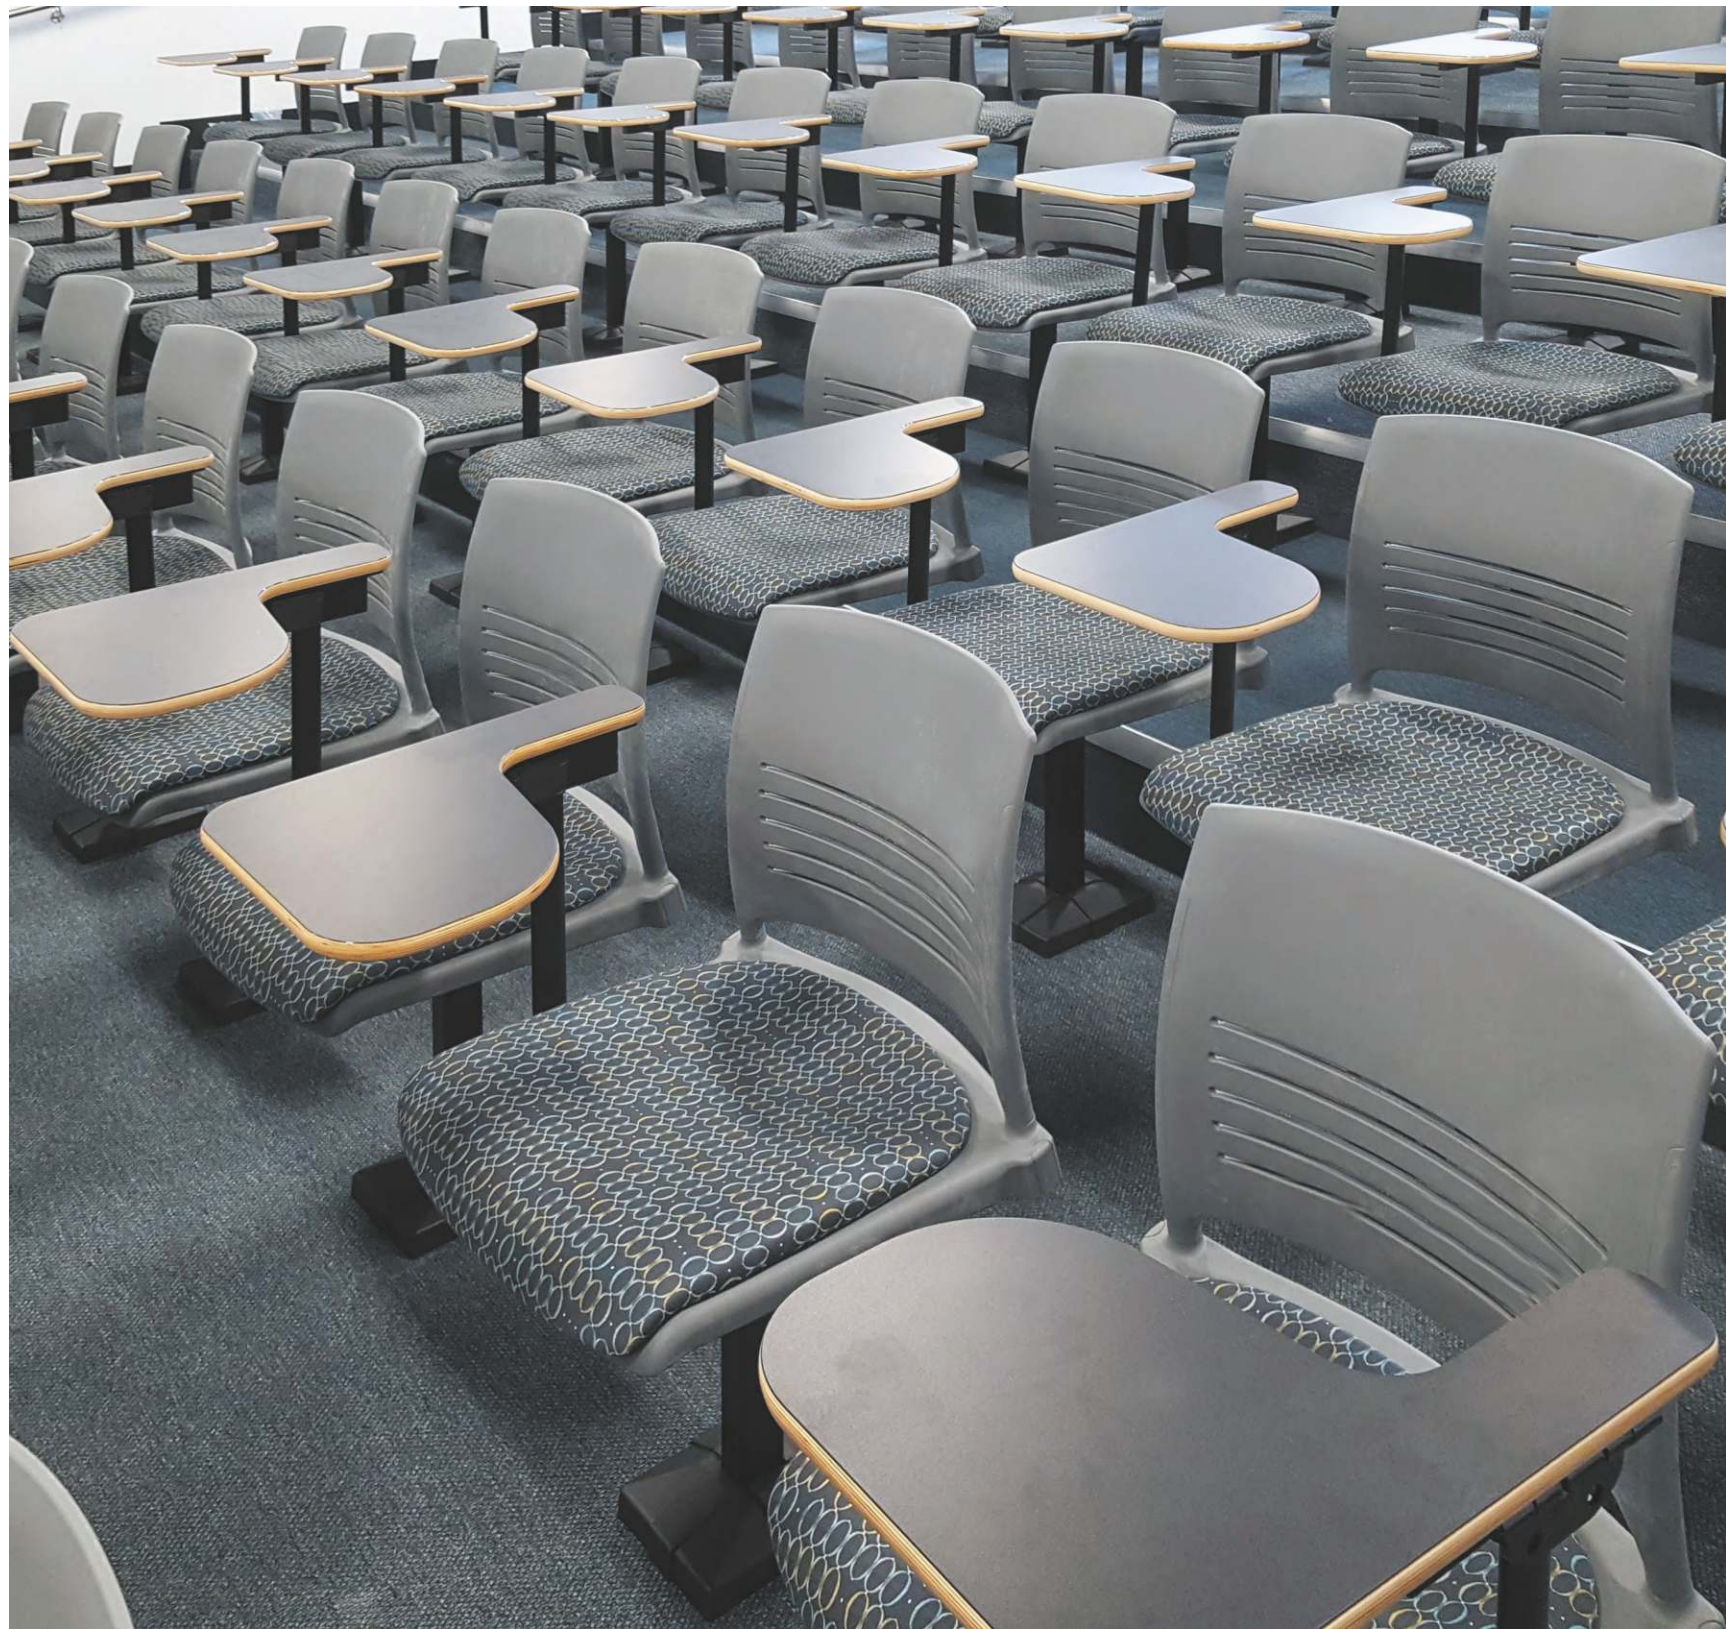

## University Seating

Imago university seating is feature rich with fixed workspaces that provide space for writing, computing or collaborating. Swing-away arms support two seating styles – for the look and comfort that’s just right. Seats swivel and align automatically when vacated – so rooms never look cluttered. Optional 360-degree swivel enables shared workspace collaboration.

- Power/Data on surface or under surface
- 360-degree swivel seats (select seat styles only)
- Custom modesty and end panels
- Curved, straight, or angled rows
- Flat floor mounts

## Single Pedestal Seating

With tablet arm seats that are individually fixed to the floor, this seating maximizes potential with ultra-flexible, leading-edge seating configurations.

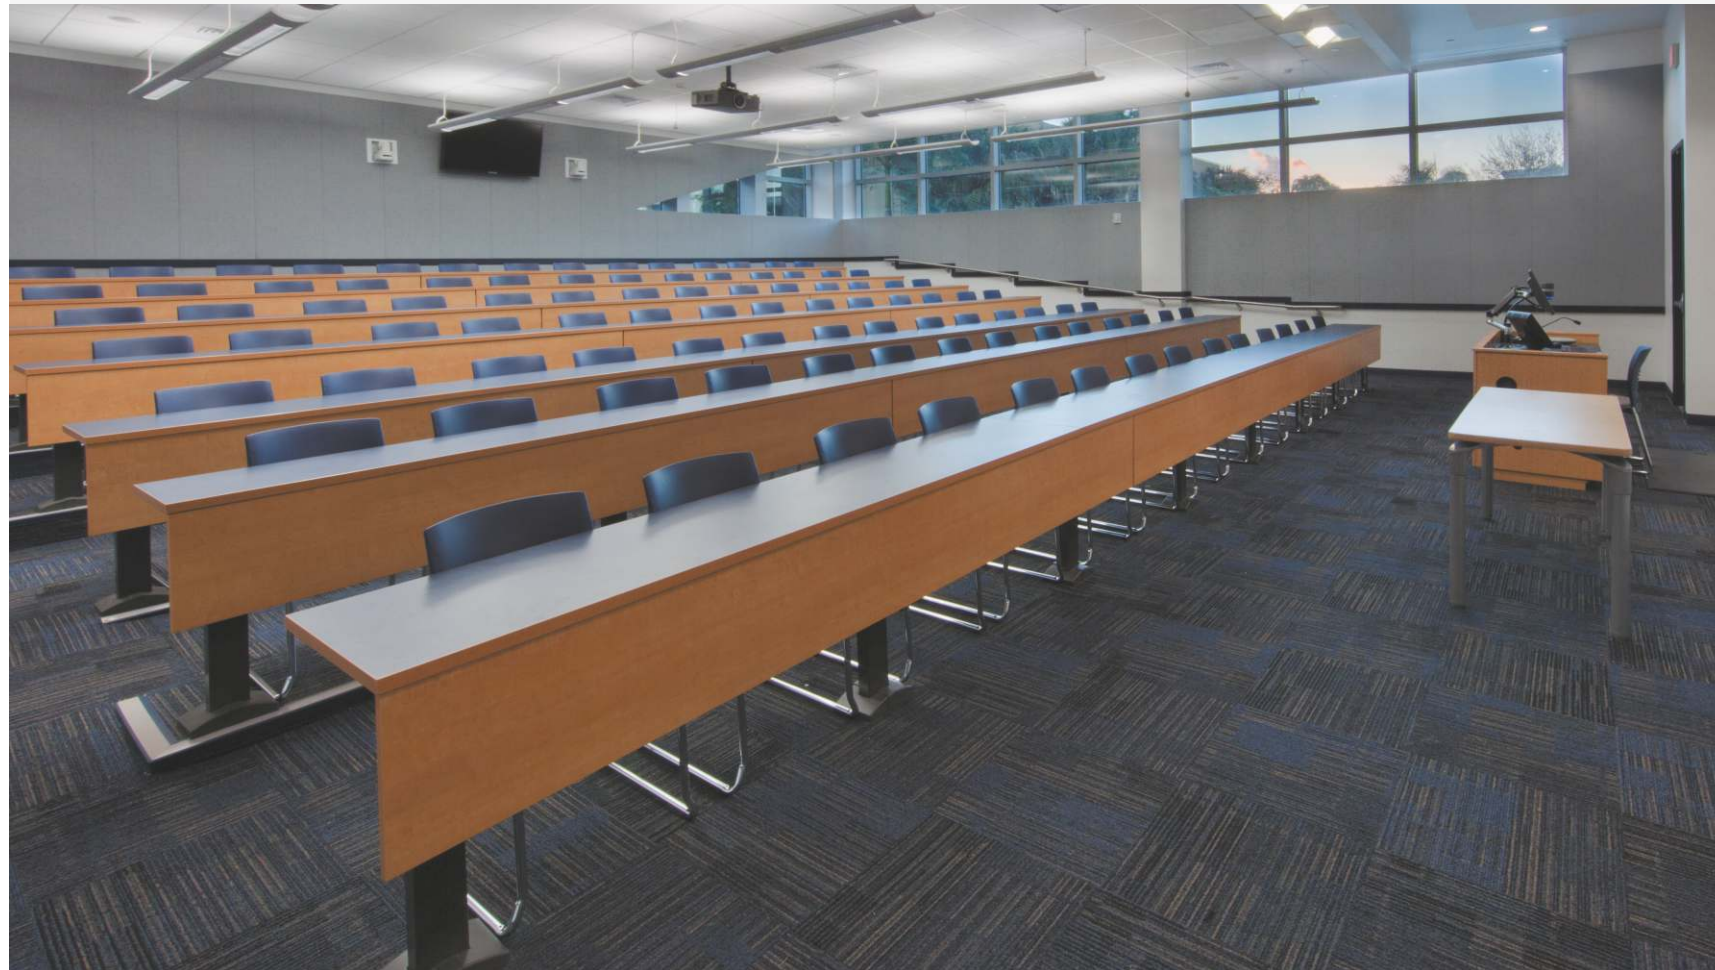

- 360-degree rotation
- Two-on-one tiered arrangements
- Tablet arm options

## Seminar Tables

Imago Seminar tables have permanently mounted cantilevered pedestal legs which support continuous or non-continuous worksurfaces arranged in straight, curved, or angled configurations.

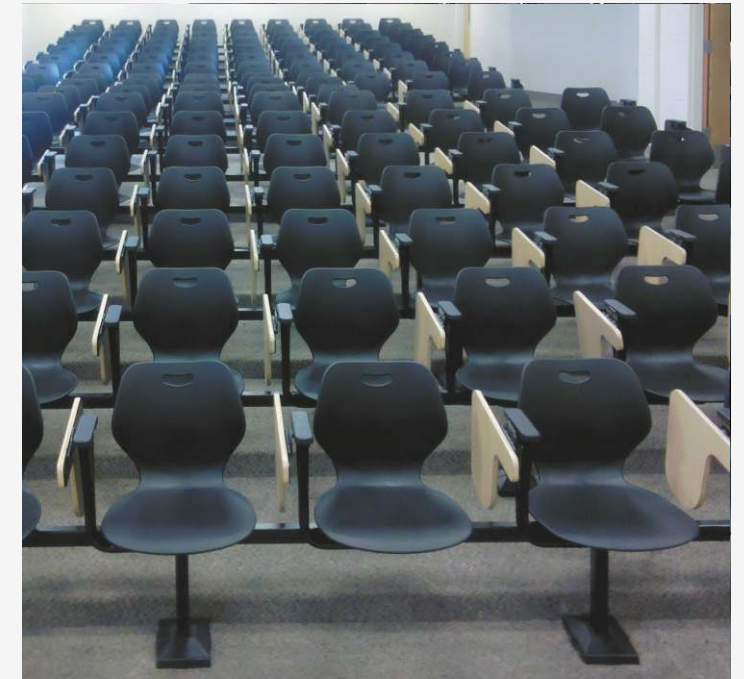

In conjunction with loose seating or fixed seating, arrangements are flexible and students can collaborate by gathering around the fixed worksurfaces. Provision for Power/Data on surface or under surface further enhances the experience.

## Sequence Seating

Durable beam-mounted seats in curved or straight configurations provide ample under-seat clearance for ease of cleaning.

- Tablet styles - G2
- Three seating styles
- Power/Data module
- Curved or straight beams

## Custom Fixed Seating

Imago is a leading provider of customized solutions. We understand the importance of meeting your specific needs and provide our customers with what they want, when they want it. Our specialized planning includes custom solutions and tailored room configurations.

- Swing arm Jury Base seating
- Customized worksurface shapes and sizes
- Tailored end and modesty panel styles, sizes, and materials

## Auditorium Seating

Extol auditorium seating delivers impressive aesthetics with its clean lines and finish options, then follows through with comfort, durability, and versatile seat sizing.

- Durable gravity-lift seat returns have no springs to wear out, resulting in longer service life.
- Five seat widths – 20, 21, 22, 23, and 24 inches enable versatile planning to fit your space and comfortably accommodate most users.
- Back pitch adjusts to 16, 20, or 24 degrees.
- Seats can be mounted on sloped floors from 0 to 9 degrees.
- Options include tablet arms, cup holders, aisle lights, seat numbers, row markers.
